

Everyone deserves
high-quality healthcare
no matter where they live

And Marathon Health is lighting the way

Introducing

We've taken our relationship-driven model, enhanced with digital tools and services, and made it accessible virtually anywhere

Marathon Health Anywhere allows you to provide comprehensive primary care to your entire employee population.

Acute care coverage is available **24/7, 365 days a year, spanning all 50 states.**

Concierge Care services are the gateway from virtual to personal care

Our industry-leading digital tools allow for increased access and a better patient experience, while our Concierge Care service makes it personal and engaging.

Members have access to:

- ✓ Full-service virtual primary and acute care
- ✓ Behavioral health counseling
- ✓ Wellness services and health coaching
- ✓ Chronic Care Management through connected devices
- ✓ Medication and lab services

Not just virtual care, but a Care Team that meets a member's every need

Marathon Health Anywhere goes far beyond telehealth. It provides the same full-service care members receive at our onsite and Network Health Centers.

Our Care Team includes:

Physicians

Behavioral Health Counselors

RN Health Coaches

Engagement Specialists

Member Relations Team

Concierge Care Coordinators

Relationship-driven care lowers costs and improves outcomes

- ✓ A primary care solution for your total population
- ✓ A comprehensive range of integrated care services
- ✓ A one-of-a-kind network of virtual care
- ✓ A gateway to the right care, right from the start
- ✓ A policy of working with members to become smarter healthcare consumers

Comprehensive care, virtually anywhere

The patient journey

Our member experience is simple. But behind the scenes, the Marathon Health Care Team is constantly working to provide resources for members while coordinating their care every step of the way.

Member connects with Marathon Health

1

The member connects with their **Anywhere Care Team** by calling them directly, or the team proactively contacts the member via an **Engagement Specialist**.

An engagement strategy is then developed for the member moving forward.

Member meets their Anywhere Care Team

2

The member partners with a primary care doctor and clinical team. They provide a treatment plan and, when appropriate, start the **Remote Patient Monitoring Program (RPMP)**.

Member develops plans with team

3

Their **Anywhere Care Team** and a **Concierge Care Coordinator** work together to establish a health plan for the member's entire life journey. All referrals are coordinated and scheduled by our team.

Member makes progress with always-there support

4

The **Anywhere Care Team** constantly monitors a member's progress, supporting and guiding them along the way, while continually optimizing their care.

Where your employees live shouldn't limit the options you can provide for them and their families
